

Alabama Fire College  
**Hazardous Materials Operations Level**  
Performance Evaluation Grade Sheet

Name: \_\_\_\_\_ Fire Department: \_\_\_\_\_  
Address: \_\_\_\_\_  
Training Location: \_\_\_\_\_ Date Started: \_\_\_\_\_

This Performance Evaluation Grade Sheet is to be used in conjunction with the Alabama Fire College Hazardous Materials Operation Level Performance Evaluation Skill Sheets and Instruction Sheet. These skills meet the skill requirements of chapters 4 and 5 of NFPA 472, *Standard for Professional Competence of Responders to Hazardous Materials Incidents*, 2002 edition. The evaluator for these skills cannot be the instructor.

The students will be given a hazardous materials based scenario. During the scenario the students will perform the required skills as a team. While we encourage all students to perform each listed skill, we realize that time and equipment constraints and the nature of the scenario required for the skill may limit students to certain roles within that skill. Therefore, students are allowed to pass a skill if the evaluator determines they actively participated in the skill.

Please submit a Performance Evaluation Grade Sheet for each student in your class to the test proctor. Students must receive a passing grade on all skills in order to take the Hazardous Materials Awareness and Operations certification test.

Skill	Primary Task	Pass/Fail	Student Initial	Evaluator Initial
1	Initiating the Incident Management System			
2	Collecting Hazard and Response Information			
3	Using PPE			
4	Establishing and Enforcing Control Zones			
5	Demonstrating Defensive Control Functions			
6	Communicating the Planned Response
