

Technical Rescue Personnel (TRP): Confined Space Rescue

Instructional JPR Verification Sheet

Full Name: _____ Fire Department: _____

This Instructional JPR Verification Sheet is to be used in conjunction with the Alabama Fire College Technical Rescue Personnel (TRP): Confined Space Rescue Skill Sheets. These skills meet all the requirements of NFPA 1006, Chapter 7, *Technical Rescue Personnel Professional Qualifications*, 2021 edition. Each of these skills should be taught and assessed during the course. This form must be submitted by the Instructor for Certification.

Skill Sheet	Primary Task	JPR(s) Covered
Confined Space Rescue Awareness Level		
01	Initiate Isolation Procedures	7.1.1
02	Initiate a Search and Communicate with Victims	7.1.2, 7.1.3
03	Perform Non-Entry Rescue	7.1.4
04	Size-Up a Confined Space Incident	7.1.5
05	Recognize the Need for Resources and Support an Incident	7.1.6, 7.1.7
Confined Space Rescue Operations Level		
06	Initiate a Search and Perform Size-Up	7.2.1, 7.2.2
07	Monitor the Environment	7.2.3
08	Assess the Incident	7.2.4
09	Control Hazards	7.2.5
10	Use SCBA in a Confined Space	7.2.6
11	Apply Respirator to a Victim	7.2.7
12	Full Spinal Immobilization	7.2.8
13	Prepare for Entry into a Horizontally Oriented Confined Space	7.2.9
14	Enter a Horizontally Oriented Confined Space	7.2.10
15	Package Victim for Removal from a Horizontally Oriented CS	7.2.11
16	Assemble a Portable Anchor System	7.2.12
17	Prepare for Entry into a Vertically Oriented Confined Space	7.2.13
18	Enter a Vertically Oriented Confined Space	7.2.14
19	Package Victim for Removal from a Vertically Oriented CS	7.2.15
20	Assess and Remove a Victim	7.2.16
21	Remove Entrants	7.2.17
22	Terminate an Incident	7.2.18

Confined Space Rescue Technician Level		
23	Initiate a Search	7.3.1
24	Pre-Plan Confined Space Incident	7.3.2
25	Use Supplied-Air Respirators (SARS)	7.3.3
26	Short Spinal Immobilization	7.3.4
27	Prepare for Entry into a Confined Space	7.3.5
28	Enter a Confined Space	7.3.6

**Initiate Isolation Procedures
Skill Sheet CSA – 01**

SKILL	The candidate shall recognize incident hazards and initiate isolation procedures
RESOURCES	Given scene control barriers, personal protective equipment (PPE), requisite equipment, and available specialized resources, so that all hazards are identified, unauthorized entry is controlled; resource application fits the operational requirements, hazard isolation is considered, risks to rescuers and victims are minimized, and rescue time constraints are taken into account
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Identifies resource capabilities and limitations				
2. Identifies incident hazards – CRITICAL POINT				
3. Identifies potential paths for entry to the confined space and adjacent areas				
4. Places scene control barriers and utilizes entry control methods				
5. Uses risk/benefit analysis to assess victim viability				
6. Operates control and mitigation equipment properly				
Candidate must successfully perform 5/6 steps including ALL CRITICAL POINTS	Score: __/6		Score: __/6	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Initiate a Search and Communicate with Victims
Skill Sheet CSA – 02**

SKILL	The candidate shall initiate a search in areas immediately adjacent to the space and communicate with victim(s)
RESOURCES	Given hazard-specific PPE, equipment pertinent to search mission, a confined space incident location, victim investigative information, and a clear environment, so that search parameters are established; the victim profile is established; the entry and exit of all people either involved in the search or already within the search area are questioned and the information is updated and relayed to command; the personnel assignments match their expertise; all victims in the adjacent areas to the space are located as quickly as possible; applicable technical rescue concerns are managed; risks to searchers are minimized; all searchers are accounted for; and victim communication is established when possible and information relative to patient condition is documented and conveyed to incoming confined space rescue resources
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Demonstrates ability to enter, maneuver in, and exit the adjacent areas to the confined space incident				
2. Demonstrates ability to perform escape from the area if conditions become untenable				
3. Uses communication methods that are effective from the outside to the inside of a confined space				
4. Identifies victim communication needs				
5. Uses methods for documentation and transfer of victim information				
6. Minimizes risk to rescuers – CRITICAL POINT				
7. Ensures accountability of all searchers				
Candidate must successfully perform 5/7 steps including ALL CRITICAL POINTS	Score: __/7		Score: __/7	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score
		Pass____ Fail____
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)		
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score
		Pass____ Fail____
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)		
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #	
<p>Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.</p> <p>Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.</p>		

**Perform Non-Entry Rescue
Skill Sheet CSA – 03**

SKILL	The candidate shall perform nonentry rescue
RESOURCES	Given PPE; an anchored retrieval system attached to a victim located inside a confined space with a clear interior; safety, communication, and operational protocols; and a confined space rescue tool kit, so that the retrieval system is operated to extract the victim, the rescuer is protected from fall hazards when working near unprotected edges, victim communication is established and maintained, the victim is managed through the portal, and patient care is initiated on extraction
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Utilizes appropriate PPE – CRITICAL POINT				
2. Applies fall prevention methods/systems				
3. Operates nonentry rescue (retrieval) systems and equipment				
4. Implements safety, communication, and operational protocols				
5. Uses methods for assuring victim passage through the portal without obstruction				
6. Establishes and maintains victim communication				
7. Initiates patient care upon extraction				
Candidate must successfully perform 5/7 steps including ALL CRITICAL POINTS	Score: __/7		Score: __/7	
Evaluator Notes				
Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score		
		Pass___	Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)				
Re-Test Evaluator Print Name & Signature:	Overall Skill Sheet Re-Test Score			
		Pass___	Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)				
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #			
Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.				
Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.				

**Size-up a Confined Space Incident
Skill Sheet CSA – 04**

SKILL	The candidate shall size up a confined space rescue incident
RESOURCES	Given background information and applicable reference materials, so that the scope of the rescue is determined, the number of victims is identified, the last reported location of all the victims is established, witnesses and reporting parties are identified and interviewed, resource needs are assessed, primary search parameters are identified, and information required to develop an initial incident action plan is obtained
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Demonstrates the ability to read technical rescue reference materials				
2. Gathers information				
3. Identifies and interviews reporting parties using proper interview techniques				
4. Shows ability to use multiple sources for gathering information				
5. Relays information				
Candidate must successfully perform 4/5 steps including ALL CRITICAL POINTS	Score: __/5		Score: __/5	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Recognize the Need for Resources and Support an Incident
Skill Sheet CSA – 05**

SKILL	The candidate shall recognize the need for technical rescue resources at an incident, and support an operations- or technician-level incident
RESOURCES	Given AHJ guidelines, an incident, an assignment, an IAP, and resources from the tool kit, so that the need for additional resources is identified, the response system is initiated, the scene is secured and rendered safe until additional resources arrive, awareness-level personnel are incorporated into the operational plan, the assignment is carried out, progress is reported to command, environmental concerns are managed, personnel rehabilitation is facilitated, and the IAP is supported
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Applies operational protocols				
2. Selects specific planning forms based on the type of incident				
3. Identifies and evaluates various hazards – CRITICAL POINT				
4. Requests support and resources and ensures awareness-level personnel are incorporated into the operational plan				
5. Determines required safety measures and secures scene – CRITICAL POINT				
6. Performs functions within Incident Management System				
7. Implements and follows an Incident Action Plan				
8. Reports task progress status to Incident Command				
9. Manages environmental concerns				
10. Facilitates personnel rehab				
Candidate must successfully perform 7/10 steps including ALL CRITICAL POINTS	Score: __/10		Score: __/10	

Evaluator Notes

Confined Space Rescue Awareness Level

*NFPA 1006, Standard for Technical Rescue Personnel
Professional Qualifications 2021 Ed., 7.1.6, 7.1.7*

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:	Overall Skill Sheet Re-Test Score		
	Pass___	Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		
Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.			
Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.			

**Initiate a Search and Perform Size-Up
Skill Sheet CSO – 06**

SKILL	The candidate shall initiate a search inside a confined space in those areas immediately visible from the confined space entry portal and perform size-up of a confined space rescue incident
RESOURCES	Given hazard-specific PPE, equipment pertinent to search mission, a confined space, and victim investigative information, background information and applicable reference materials, so that the type of rescue is determined, the number of victims is identified, the last reported location of all victims is established, witnesses and reporting parties are identified and interviewed, resource needs are assessed, search parameters are identified, and information required to develop an incident action plan is obtained search parameters are established; the victim profile is established; the people in or around the search area are questioned and the information is updated and relayed to command; the personnel assignments match their expertise; all victims inside the space that are immediately visible from outside the portal are located and identified quickly; applicable technical rescue concerns are managed; risks to searchers are minimized; and all searchers are accounted for
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS		Test		Retest	
Safely performs the following steps:		P	F	P	F
1. Shows ability to work in the immediate area of the confined space entry portal					
2. Performs immediate escape from the area if conditions become untenable					
3. Shows ability to read technical rescue reference materials					
4. Gathers and relays size-up information – CRITICAL POINT					
5. Shows ability to use multiple sources for gathering information					
Candidate must successfully perform 4/5 steps including ALL CRITICAL POINTS		Score: __/5		Score: __/5	
Evaluator Notes					
Evaluator Print Name & Signature:		Date	Overall Skill Sheet Score		
			Pass___	Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)					
Re-Test Evaluator Print Name & Signature:			Overall Skill Sheet Re-Test Score		
			Pass___	Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)					
Candidate Print Name & Signature:		Candidate: Print Name or Candidate #			
Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.					
Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.					

**Monitor the Environment
Skill Sheet CSO – 07**

SKILL	The candidate shall conduct monitoring of the environment
RESOURCES	Given monitoring equipment, reference material, personal protective equipment, accurately calibrated detection and monitoring equipment and size-up information, so that a representative sample of the space is obtained, accurate readings are made, readings are documented, and effects of ventilation in determining atmospheric conditions and the conditions of the space have been determined for exposures to existing or potential environmental hazards
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS		Test		Retest	
		P	F	P	F
Safely performs the following steps:					
1. Confirms calibration of monitoring/detection equipment					
2. Obtains a representative sample of the space – CRITICAL POINT					
3. Makes accurate readings and documents findings					
4. Determines effects of ventilation on atmospheric conditions and the conditions of the space for exposures to existing or potential environmental hazards					
Candidate must successfully perform 3/4 steps including ALL CRITICAL POINTS		Score: __/4		Score: __/4	
Evaluator Notes					
Evaluator Print Name & Signature:		Date	Overall Skill Sheet Score		
			Pass___	Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)					
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score			
		Pass___		Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)					
Candidate Print Name & Signature:		Candidate: Print Name or Candidate #			
Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.					
Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.					

**Assess the Incident
Skill Sheet CSO – 08**

SKILL	The candidate shall assess an incident
RESOURCES	Given size-up information, information from technical resources, monitoring equipment, and PPE required to perform the assessment, so that general area and space-specific hazards are identified, bystanders and victims are interviewed, immediate and ongoing monitoring of the space is performed, the victims' conditions and location are determined, a risk/benefit analysis is performed, methods of ingress and egress for rescuer and victims are identified, rescue systems for victim removal are determined, and an emergency means of retrieval for rescue entrants is established
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Rescuer uses appropriate personal protective equipment				
2. Identifies general area and space-specific hazards – CRITICAL POINT				
3. Interviews bystanders and victims				
4. Performs immediate and ongoing monitoring of the space – CRITICAL POINT				
5. Determines the victims' condition and location				
6. Performs a risk-benefit analysis using preplan and size-up information gathered – CRITICAL POINT				
7. Identifies methods of ingress and egress for rescuer and victims				
8. Determines rescue systems for victim removal				
9. Establishes an emergency means of retrieval for rescue entrants				
10. Utilizes a permit program for entry to confined spaces				
11. Determines types of and uses for available resources				
12. Identifies size, type, and configuration of the opening(s) and internal configuration of the space				
Candidate must successfully perform 9/12 steps including ALL CRITICAL POINTS	Score: __/12		Score: __/12	

Evaluator Notes

Evaluator Notes		
Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score

<p>Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.</p> <p>Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.</p>		

**Control Hazards
Skill Sheet CSO – 09**

SKILL	The candidate shall control hazards
RESOURCES	Given personal protective equipment and a confined space tool kit, so that the rescue area is established; access to the incident scene is controlled; rescuers are protected from exposure to hazardous materials and atmospheres, all forms of harmful energy releases, and physical hazards; and victims are protected from further harm
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Uses appropriate personal protective equipment				
2. Establishes the rescue area				
3. Controls access to the incident scene by placing scene control barriers				
4. Ventilates the confined space				
5. Monitors atmosphere – CRITICAL POINT				
6. Protects rescuers from exposure to hazardous materials and atmospheres, all forms of harmful energy releases, and physical hazards – CRITICAL POINT				
7. Ensures victims are protected from further harm				
Candidate must successfully perform 5/7 steps including ALL CRITICAL POINTS	Score: __/7		Score: __/7	
Evaluator Notes				
Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score		
		Pass___	Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)				
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score		
		Pass___	Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)				
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #			
Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.				
Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.				

**Use SCBA in a Confined Space
Skill Sheet CSO – 10**

SKILL	The candidate shall apply and use self-contained breathing apparatus (SCBA) as a rescue entrant
RESOURCES	Given a confined space incident requiring respiratory protection, a rescue assignment, a means of entry into and exit from the space, a rescue attendant outside the space, SCBA, breathing apparatus cylinders, and a confined space with the following characteristics: 1) The internal configuration of the space is clear and unobstructed so retrieval systems can be utilized for rescuers without possibility of entanglement 2) The victim can be seen easily from the outside of the space's primary access opening 3) Rescuers can pass easily through the access/egress opening(s) with room to spare when PPE is worn in the manner recommended by the manufacturer 4) The space can accommodate two or more rescuers in addition to the victim 5) All hazards in and around the confined space have been identified and can be mitigated by using respiratory protection so that the rescue entrant passes through the portal without removal of the SCBA, the assigned rescue duty is performed, the rescue entrant frequently assesses the level of air remaining in the cylinder and communicates this level to rescuers outside of the space, and the rescue entrant exits the space prior to activation of the low-pressure alarm on the SCBA
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Demonstrates the ability to use SCBA in a confined space entry for rescue				
2. Demonstrates the ability to use breathing techniques that will conserve the air supply				
3. Demonstrates the ability to use communication methods that effectively convey information between rescuers inside and outside of the space				
4. Completes rescue assignment				
5. Wears PPE according to manufacturer's recommendations – CRITICAL POINT				
6. Assesses the level of air remaining in SCBA and frequently communicates level to rescuers outside the confined space– CRITICAL POINT				
7. Exits the space prior to activation of low-pressure alarm				
Candidate must successfully perform 5/7 steps including ALL CRITICAL POINTS	Score: __/7		Score: __/7	

Evaluator Notes			
Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass____	Fail____
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass____	Fail____
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		
<p>Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.</p> <p>Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.</p>			

**Apply Respirator to a Victim
Skill Sheet CSO – 11**

SKILL	The candidate shall apply an atmosphere supplying respirator to a victim
RESOURCES	Given a confined space incident requiring respiratory protection, a live victim, an atmosphere supplying respirator and associated equipment, and a confined space with the following characteristics: 1) The internal configuration of the space is clear and unobstructed so retrieval systems can be utilized for rescuers without possibility of entanglement 2) The victim can be easily seen from the outside of the space’s primary access opening 3) Rescuers can pass easily through the access/egress opening(s) with room to spare when PPE is worn in the manner recommended by the manufacturer 4) The space can accommodate two or more rescuers in addition to the victim 5) All hazards in and around the confined space have been identified and can be mitigated by using respiratory protection so that the apparatus face piece is applied rapidly, positioned properly on the face and without air leakage; application of the face piece can be performed simultaneously with spinal precautions; the breathing apparatus unit is securely placed during victim movement, the face piece will not be pulled from the victim’s face during movement; the level of air remaining in the victim’s breathing apparatus is frequently accessed and communicated, and the victim is removed from the space without interruption of the air supply
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Demonstrates the ability to apply a patent air supply to a victim in a confined space rescue				
2. Demonstrates the ability move the victim wearing breathing apparatus without interruption of the air supply				
3. Does not compromise the victim’s air supply or face piece seal				
4. Uses communication methods that effectively convey information between rescuers inside and outside of the space				
5. Monitors the victim’s air supply continuously – CRITICAL POINT				
Candidate must successfully perform 4/5 steps including ALL CRITICAL POINTS	Score: __/5		Score: __/5	

Evaluator Notes

Evaluator Notes		
Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score
		Pass____
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)

		Pass____
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)		
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #	
Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.		
Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.		

**Full Spinal Immobilization
Skill Sheet CSO – 12**

SKILL	The candidate shall perform full spinal immobilization of a victim inside a confined space
RESOURCES	Given a confined space incident requiring spinal precautions, a victim, full spinal immobilization equipment, a second rescuer to assist, and a confined space with the following characteristics: 1) The internal configuration of the space is clear and unobstructed so retrieval systems can be utilized for rescuers without possibility of entanglement 2) The victim can be easily seen from the outside of the space’s primary access opening 3) Rescuers can pass easily through the access/egress opening(s) with room to spare when PPE is worn in the manner recommended by the manufacturer 4) The space can accommodate two or more rescuers in addition to the victim 5) All hazards in and around the confined space have been identified and can be mitigated by using respiratory protection so that the victim’s cervical spine is manually maintained in a neutral position immediately on contact and maintained until the body and head are completely immobilized and secure, victim movement onto the spinal immobilization device creates minimal manipulation of the spine, void spaces between the victim and immobilization device are padded as appropriate, victim securement to the immobilization device will prevent spinal manipulation during movement, and applicable local treatment protocols are followed
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Demonstrates the ability to maintain manual immobilization of a victim’s head during the immobilization process				
2. Assists in moving the victim to a full spine immobilizer with only two persons with minimal spinal manipulation				
3. Applies void space padding as needed based on the immobilization device				
4. Applies and secure the victim’s upper body and head to a long spinal immobilization device – CRITICAL POINT				
5. Ensures victim movement onto the spinal immobilization device creates minimal manipulation of the spine				
Candidate must successfully perform 4/5 steps including ALL CRITICAL POINTS	Score: __/5		Score: __/5

Candidate Print Name & Signature:	Candidate: Print Name or Candidate #	
Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.		
Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.		

**Prepare for Entry into a Horizontally Oriented Confined Space
Skill Sheet CSO – 13**

SKILL	The candidate shall prepare for entry into horizontally oriented confined space
RESOURCES	Given a confined space rescue tool kit and a confined space with the following characteristics: 1) The internal configuration of the space is clear and unobstructed so retrieval systems can be utilized for rescuers without possibility of entanglement 2) The victim can be easily seen from the outside of the space’s primary access opening 3) Rescuers can pass easily through the access/egress opening(s) with room to spare when PPE is worn in the manner recommended by the manufacturer 4) The space can accommodate two or more rescuers in addition to the victim 5) All hazards in and around the confined space have been identified and can be mitigated by using respiratory protection so that victim communication is established when possible, continuous atmospheric monitoring is initiated, rescuer readiness is verified, rescuers’ limitations are identified and evaluated, rescuers unsuitable to confined space entry operations are reassigned and replaced, route and methods of entry are determined, and rescuer evacuation is planned
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Establishes victim communication				
2. Initiates continuous atmospheric monitoring – CRITICAL POINT				
3. Verifies rescuer readiness				
4. Identifies and evaluates rescuers’ capabilities and limitations				
5. Verifies rescuer’s participation in pre-entry medical screening				
6. Reassigns and replaces rescuers unsuitable to entry				
7. Determines route and method of entry				
8. Plans rescuer evacuation				
Candidate must successfully perform 6/8 steps including ALL CRITICAL POINTS	Score: __/8		Score: __/8	
Evaluator Notes				

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)

		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		
Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.			
Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.			

**Enter a Horizontally Oriented Confined Space
Skill Sheet CSO – 14**

SKILL	The candidate shall enter a horizontally oriented confined space
RESOURCES	Given personal protective equipment; safety, communication, and operational protocols; a confined space rescue tool kit; and a confined space with the following characteristics: 1) The internal configuration of the space is clear and unobstructed so retrieval systems can be utilized for rescuers without possibility of entanglement 2) The victim can be easily seen from the outside of the space’s primary access opening 3) Rescuers can pass easily through the access/egress opening(s) with room to spare when PPE is worn in the manner recommended by the manufacturer 4) The space can accommodate two or more rescuers in addition to the victim 5) All hazards in and around the confined space have been identified and can be mitigated by using respiratory protection so that victim is contacted, controlled confined space entry is established and maintained, atmosphere is continuously monitored, the victim’s mental and physical conditions are further assessed, patient care is initiated, the patient is packaged to restrictions of the space, and patient removal can be initiated
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Uses and applies Personal Protective Equipment and rescue-related system, to include equipment, properly – CRITICAL POINT				
2. Utilizes portable lighting in a darkened environment				
3. Contacts victim				
4. Establishes and maintains controlled entry				
5. Monitors atmosphere continuously – CRITICAL POINT				
6. Assesses victim’s mental and physical conditions and determines treatment priorities				
7. Initiates patient care using medical equipment specific to confined space victim needs				
8. Packages patient to restrictions of the space				
9. Initiates patient removal				
10. Reassesses and confirms mode of operation				
11. Follows all provided safety, communication, and operational protocols				
Candidate must successfully perform 8/11 steps including ALL CRITICAL POINTS	Score: __/11		Score: __/11

**Package a Victim for Removal from a Horizontally Oriented
Confined Space
Skill Sheet CSO – 15**

SKILL	The candidate shall package the victim in a litter for removal from a horizontally oriented confined space
RESOURCES	Given a confined space rescue tool kit, a litter and associated rigging equipment, a space that provides enough internal and external clearance to maneuver a litter in and around the space, so that the victim is secured to the litter, the litter is secured to the rescue system if needed, the litter will pass through the portal, the victim is protected during the extraction, and further harm to the victim is minimized
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Prevents damage to rescue/retrieval equipment – CRITICAL POINT				
2. Immobilizes victim’s spine				
3. Packages victim for removal in litter, gives victim smallest profile possible				
4. Minimizes further harm to victim – CRITICAL POINT				
5. Recognizes and manages injuries and/or medical conditions				
6. Performs CPR as required in a confined space environment and supports respiratory efforts				
7. Performs local treatment modalities as required based on the environment				
Candidate must successfully perform 5/7 steps including ALL CRITICAL POINTS	Score: __/7		Score: __/7	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Assemble a Portable Anchor System
Skill Sheet CSO – 16**

SKILL	The candidate shall assemble a portable anchor system for application of a high point of attachment to a confined space rescue system
RESOURCES	Given a portable anchor device, additional rescuers to assist in the assembly, and a vertically oriented space with a portal above which to set the portable anchor, so that the portable anchor is assembled in accordance with the manufacturer’s recommendations, rescue systems are attached and secured to the anchor device and the portable anchor provides enough clearance above the portal to fully extract a victim packaged in a vertically oriented litter
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Utilizes proper personal protective equipment				
2. Demonstrates the ability to assemble a portable anchor device with assistance from other rescuers				
3. Attaches the rescue system to the portable anchor				
4. Positions the device high enough to provide adequate clearance area above the portal to allow removal of a vertically oriented litter				
5. Operates the system, ensuring that the portable anchor remains stable while lifting the load – CRITICAL POINT				
Candidate must successfully perform 4/5 steps including ALL CRITICAL POINTS	Score: __/5		Score: __/5

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Prepare for Entry into a Vertically Oriented Confined Space
Skill Sheet CSO – 17**

SKILL	The candidate shall prepare for entry into a vertically oriented confined space
RESOURCES	Given a confined space rescue tool kit and a confined space with the following characteristics: 1) The internal configuration of the space is clear and unobstructed so retrieval systems can be utilized for rescuers without possibility of entanglement 2) The victim can be easily seen from the outside of the space’s primary access opening 3) Rescuers can pass easily through the access/egress opening(s) with room to spare when PPE is worn in the manner recommended by the manufacturer 4) The space can accommodate two or more rescuers in addition to the victim 5) All hazards in and around the confined space have been identified and can be mitigated by using respiratory protection so that victim communication is established when possible, continuous atmospheric monitoring is initiated, rescuer readiness is verified, rescuers’ limitations are identified and evaluated, rescuers unsuitable to confined space entry operations are reassigned and replaced, route and methods of entry are determined, and rescuer evacuation is planned
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Establishes victim communication				
2. Initiates continuous atmospheric monitoring – CRITICAL POINT				
3. Verifies rescuer readiness				
4. Identifies and evaluates rescuers’ capabilities and limitations				
5. Verifies rescuer’s participation in pre-entry medical screening				
6. Reassigns and replaces rescuers unsuitable to entry				
7. Determines route and method of entry				
8. Plans rescuer evacuation				
Candidate must successfully perform 6/8 steps including ALL CRITICAL POINTS	Score: __/8		Score: __/8

**Package a Victim for Removal from a Vertically Oriented Confined
Space
Skill Sheet CSO – 19**

SKILL	The candidate shall package the victim in a litter for removal from a vertically oriented confined space
RESOURCES	Given a confined space rescue tool kit, a vertically oriented litter and associated rigging equipment, a work area that provides enough vertical clearance to extract a vertically oriented litter and a victim, so that the victim is secured to the litter, the litter is secured to the rescue system in a vertically configuration, the litter will pass through the portal, the litter can be raised high enough to clear the portal, the victim is protected during the extraction, and further harm to the victim is minimized
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS		Test		Retest	
		P	F	P	F
Safely performs the following steps:					
1. Prevents damage to rescue/retrieval equipment – CRITICAL POINT					
2. Immobilizes victim’s spine					
3. Packages victim for removal in litter, gives victim smallest profile possible					
4. Minimizes further harm to victim – CRITICAL POINT					
5. Recognizes and manages injuries and/or medical conditions					
6. Performs CPR as required in a confined space environment and supports respiratory efforts					
7. Performs local treatment modalities as required based on the environment					
Candidate must successfully perform 5/7 steps including ALL CRITICAL POINTS		Score: __/7		Score: __/7

Candidate Print Name & Signature:		Candidate: Print Name or Candidate #			
Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.					
Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.					

**Assess and Remove a Victim
Skill Sheet CSO – 20**

SKILL	The candidate shall access and rapidly remove a victim from a vertically oriented confined space
RESOURCES	Given a confined space rescue tool kit, victim harnesses and rigging, a victim who has been discovered to be in respiratory arrest, and conditions inside the space requiring immediate extraction to prevent imminent death of the victim, so that the victim is rapidly secured in an extraction harness, the harness is secured to the rescue system, and the victim is removed from the space
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Recognizes the immediate threat and need for rapid extrication of the victim – CRITICAL POINT				
2. Applies victim harness rapidly				
3. Rigs rescue systems				
4. Minimizes further harm to victim				
5. Removes victim from the space				
Candidate must successfully perform 4/5 steps including ALL CRITICAL POINTS	Score: __/5		Score: __/5	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___

		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Remove Entrants
Skill Sheet CSO – 21**

SKILL	The candidate shall remove all entrants from a confined space
RESOURCES	Given PPE, rope and related rescue and retrieval systems, personnel to operate rescue and retrieval systems, and a confined space rescue tool kit, so that internal obstacles and hazards are negotiated, all persons are extricated from a space in the selected transfer device, the victim and rescuers are decontaminated as necessary, and the victim is delivered to the EMS provider
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Uses appropriate personal protective equipment				
2. Negotiates internal obstacles and hazards				
3. Extricates all persons with the rescue and retrieval system – CRITICAL POINT				
4. Utilizes medical equipment to treat the victim as needed				
5. Decontaminates victim and rescuers, as necessary				
6. Delivers victim to the EMS provider				
Candidate must successfully perform 5/6 steps including ALL CRITICAL POINTS	Score: __/6		Score: __/6	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Terminate an Incident
Skill Sheet CSO – 22**

SKILL	The candidate shall terminate a technical rescue operation
RESOURCES	Given an incident scenario, assigned resources, and site safety data so that rescuer risk and site safety are managed, scene security is maintained and custody transferred to a responsible party, personnel and resources are returned to a state of readiness, recordkeeping and documentation occur, and post-event analysis is conducted
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Recognizes hazards – CRITICAL POINT				
2. Applies risk analysis techniques				
3. Utilizes site control equipment and methods and ensures scene security is maintained				
4. Utilizes data collection and management systems				
5. Utilizes systems to track personnel and assets				
6. Conducts a post-event analysis				
Candidate must successfully perform 5/6 steps including ALL CRITICAL POINTS	Score: __/6		Score: __/6	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Initiate a Search
Skill Sheet CST – 23**

SKILL	The candidate shall initiate a search inside a confined space in those areas not immediately visible from the confined space entry portal
RESOURCES	Given hazard-specific PPE, confined space rescue entrant(s) to perform the search, equipment pertinent to search mission, a confined space, and victim investigative information, so that search parameters are established; the victim profile is established; search result information is acquired and relayed to command; the personnel assignments match their expertise; all victims inside the space are located and identified quickly; applicable technical rescue concerns are managed; risks to searchers are minimized; and all searchers are accounted for
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS		Test		Retest	
		P	F	P	F
Safely performs the following steps:					
1. Demonstrates ability to work inside the confined space					
2. Communicates with rescuers outside the confined space portal					
3. Performs self-rescue if conditions become untenable – CRITICAL POINT					
4. All victims inside the space are located and identified					
5. Risk to rescuers is minimized – CRITICAL POINT					
Candidate must successfully perform 4/5 steps including ALL CRITICAL POINTS		Score: __/5		Score: __/5	
Evaluator Notes					
Evaluator Print Name & Signature:		Date	Overall Skill Sheet Score		
			Pass___	Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)					
Re-Test Evaluator Print Name & Signature:			Overall Skill Sheet Re-Test Score		
			Pass___	Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)					
Candidate Print Name & Signature:		Candidate: Print Name or Candidate #			
Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.					
Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.					

**Pre-Plan Confined Space Incident
Skill Sheet CST – 24**

SKILL	The candidate shall preplan a confined space incident
RESOURCES	Given applicable guidelines and regulations and a preplan form, so that a standard approach is used during a confined space rescue emergency, hazards are recognized and documented, isolation methods are identified and documented, all accesses to the location of the confined space entry opening are identified and documented, all types of confined space entry openings are identified and documented, and internal configurations and special resource needs are documented for future rescuer use
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS		Test		Retest	
		P	F	P	F
Safely performs the following steps:					
1. Demonstrates ability to select and complete specific preplan forms					
2. Drafts or draws a sketch of the confined space					
3. Recognizes and documents hazards – CRITICAL POINT					
4. Identifies and documents isolation methods – CRITICAL POINT					
5. Identifies and documents all access to the location of the entry opening					
6. Identifies and documents all types of entry openings					
7. Documents internal configurations and special resource needs					
8. Applies all regulatory compliance references					
Candidate must successfully perform 6/8 steps including ALL CRITICAL POINTS		Score: __/8		Score: __/8	
Evaluator Notes					
Evaluator Print Name & Signature:		Date	Overall Skill Sheet Score		
			Pass___	Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)					
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score			
		Pass___		Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)					
Candidate Print Name & Signature:		Candidate: Print Name or Candidate #			
Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.					
Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.					

Use Supplied-Air Respirators (SARs)
Skill Sheet CST – 25

SKILL	The candidate shall apply and use supplied-air respirators (SARs) as a rescue entrant
RESOURCES	Given a confined space incident requiring respiratory protection, a rescue assignment, a means of entry into and exit from the space, a rescue attendant outside the space, personnel to manage air lines outside of the space, a SAR, a breathing air supply system with air lines to supply the SAR, breathing apparatus cylinders, personnel to monitor and maintain the air supply system, and a confined space with the following characteristics: 1) The internal configuration of the space will not create entanglement hazards when using air lines 2) The victim cannot be seen from the outside of the space’s primary access opening 3) The portal size and configuration will not allow a rescuer to pass through the access/egress opening(s) using SCBA when worn in the manner recommended by the manufacturer 4) All hazards in and around the confined space have been identified and might be mitigated by using respiratory protection so that the rescue entrant passes through the portal without removal of the SAR and the assigned rescue duty is performed
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Demonstrates the ability to use SAR in a confined space entry for rescue				
2. Uses breathing techniques that will conserve the air supply				
3. Manages airlines while working within the space – CRITICAL POINT				
4. Utilizes communication methods that effectively convey information between rescuers inside and outside of the space				
5. Performs assigned rescue duty				
Candidate must successfully perform 4/5 steps including ALL CRITICAL POINTS	Score: __/5		Score: __/5	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Short Spinal Immobilization
Skill Sheet CST – 26**

SKILL	The candidate shall perform short spinal immobilization of a victim inside a confined space
RESOURCES	Given a confined space incident requiring spinal precautions, a stable victim, a short spinal immobilization device, a second rescuer to assist, and a confined space with the following characteristics: 1) The portal size or internal configuration will not allow the application of a full spine immobilization device 2) All hazards in and around the confined space have been identified and might be mitigated by using respiratory protection so that the victim’s cervical spine is manually maintained in a neutral position immediately on contact and maintained until the short immobilization device is completely applied and secure, victim movement onto the spinal immobilization device creates minimal manipulation of the spine, void spaces between the victim and immobilization device are padded as appropriate, victim securement to the immobilization device will reduce spinal manipulation during movement, and applicable local treatment protocols are followed
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Demonstrates the ability to maintain manual immobilization of a victim’s head during the immobilization process				
2. Assists in moving the victim to a short spine immobilizer with only two persons with minimal spinal manipulation				
3. Applies void space padding as needed based on the immobilization device				
4. Applies and secure the victim’s upper body and head to a short spinal immobilization device – CRITICAL POINT				
5. Ensures victim movement onto the spinal immobilization device creates minimal manipulation of the spine				
Candidate must successfully perform 4/5 steps including ALL CRITICAL POINTS	Score: __/5		Score: __/5

By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)		
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #	
Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.		
Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.		

**Prepare for Entry into a Confined Space
Skill Sheet CST – 27**

SKILL	The candidate shall prepare for entry into the confined space with a hazardous atmosphere
RESOURCES	Given a confined space with a hazardous atmosphere, atmosphere-supplied respirators, a confined space rescue tool kit, and a confined space that contains one or more of the following characteristics: 1) The internal configuration of the space could create entanglement hazards and retrieval might not be effective 2) The victim cannot be seen from the outside of the space’s primary access opening 3) The portal size and configuration will not allow a rescuer to pass through the access/egress opening(s) using SCBA when worn in the manner recommended by the manufacturer 4) All hazards in and around the confined space have been identified and can be mitigated by using respiratory protection so that continuous atmospheric monitoring is initiated, the atmosphere is assessed to be manageable with atmosphere supplying respirators, victim communication is established when possible, atmosphere supplying respirators are used by rescue entrants while within the space, atmosphere supplying respirators are rapidly applied to the victim, rescuer readiness is verified, rescuer’s limitations are identified and evaluated, rescuers unsuitable to entry operations are reassigned and replaced, route and methods of confined space entry are determined, and rescuer evacuation is planned
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Demonstrates the ability to operate monitoring equipment – CRITICAL POINT				
2. Performs rescuer pre-entry medical exam				
3. Evaluates rescuer capabilities and limitations				
4. Identifies victim communication needs				
5. Ensures victim movement onto the spinal immobilization device creates minimal manipulation of the spine				
6. Selects appropriate evacuation method				
Candidate must successfully perform 5/6 steps including ALL CRITICAL POINTS	Score: __/6		Score: __/6	
Evaluator Notes				

Confined Space Rescue Technician Level

*NFPA 1006, Standard for Technical Rescue Personnel
Professional Qualifications 2021 Ed., 7.3.5*

By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		
Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.			
Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.			

**Enter a Confined Space
Skill Sheet CST – 28**

SKILL	The candidate shall enter a confined space with atmospheric hazards
RESOURCES	Given hazard-specific PPE; safety, communication, and operational protocols; a confined space with a hazardous atmosphere; a confined space rescue tool kit so that the victim is contacted; and a confined space that contains one or more of the following characteristics: 1) The internal configuration of the space could create entanglement hazards and retrieval might not be effective 2) The victim cannot be seen from the outside of the space’s primary access opening 3) The portal size and configuration will not allow a rescuer to pass through the access/egress opening(s) using SCBA when worn in the manner recommended by the manufacturer 4) All hazards in and around the confined space have been identified and can be mitigated by using respiratory protection so that a controlled confined space entry is established and maintained, the atmosphere is continuously monitored, the rescuers and patient(s) are protected from the hazards, the victim’s mental and physical conditions are further assessed, patient care is initiated, the patient is packaged to restrictions of the space, and patient removal can be initiated
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes.

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Demonstrates the ability to use and apply hazard-specific PPE and rescue-related systems and equipment – CRITICAL POINT				
2. Implements safety, communication, and operational protocols				
3. Uses medical protocols to determine treatment priorities				
4. Uses medical equipment specific to confined space victim needs				
5. Reassesses and confirms mode of operation				
6. Makes contact with victim				
Candidate must successfully perform 5/6 steps including ALL CRITICAL POINTS	Score: __/6		Score: __/6
