

**Technical Rescue Personnel
(TRP): Trench Rescue**

Instructional JPR Verification Sheet

Full Name: _____ Fire Department: _____

This Instructional JPR Verification Sheet is to be used in conjunction with the Alabama Fire College Technical Rescue Personnel (TRP): Trench Rescue Skill Sheets. These skills meet all the requirements of NFPA 1006, *Technical Rescue Personnel Professional Qualifications*, 2021 edition, Chapter 12. Each of these skills should be taught and assessed during the course. This form must be submitted by the Instructor for Certification.

Skill Sheet	Primary Task	JPR(s) Covered
Trench Rescue Awareness Level		
TA-01	Interview Witnesses	12.1.1
TA-02	Facilitate a Nonentry Rescue	12.1.2
TA-03	Identify Hazardous Areas	12.1.3
TA-04	Size-Up an Incident	12.1.4
TA-05	Recognize Incident Hazards and the Need for Resources	12.1.5, 12.1.6
TA-06	Identify and Support an Incident	12.1.7
Trench Rescue Operations Level		
TO-07	Identify Potential Hazards	12.2.1
TO-08	Implement a Hazard Control Plan	12.2.2
TO-09	Develop a Shoring Plan for a Non-Intersecting Trench	12.2.3
TO-10	Implement a Shoring Plan for a Non-Intersecting Trench	12.2.4
TO-11	Release Victim from Soil Entrapment-Non-Intersecting Trench	12.2.5
TO-12	Remove a Victim from a Trench	12.2.6
TO-13	Disassemble Support Systems and Terminate Scene	12.2.7, 12.2.8
Trench Rescue Technician Level		
TT-14	Develop Shoring Plan for an Intersecting Trench	12.3.1
TT-15	Implement a Shoring Plan for an Intersecting Trench	12.3.2
TT-16	Develop Shoring Plan for a Trench Deeper Than 8 Feet	12.3.3
TT-17	Implement a Shoring Plan for a Trench Deeper Than 8 Feet	12.3.4
TT-18	Support an Intersecting Trench	12.3.5
TT-19	Install Supplemental Sheeting and Shoring	12.3.6
TT-20	Utilize Spot Shoring Techniques	12.3.7
TT-21	Construct Load Stabilization System	12.3.8
TT-22	Lift a Load	12.3.9
TT-23	Coordinate Use of Heavy Equipment	12.3.10
TT-24	Release Victim from Entrapment by Collapsed Trench	12.3.11

Interview Witnesses Skill Sheet TA – 01

SKILL	The candidate shall interview any witnesses or “competent person”
RESOURCES	Given a specific trench collapse incident, so that potential for rapid, nonentry rescue or victim self-rescue is recognized
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 20 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Recognizes potential for rapid nonentry or victim self-rescue				
2. Identifies severe environmental conditions with implications for secondary collapse				
3. Identifies potential of victim survivability				
4. Identifies witnesses and reporting parties				
5. Utilizes proper interview techniques				
6. Relays pertinent information to personnel				
Candidate must successfully perform 5/6 steps including ALL CRITICAL POINTS	Score: __/6		Score: __/6	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

Facilitate a Nonentry Rescue Skill Sheet TA – 02

SKILL	The candidate shall initiate the nonentry and self-rescue tactics
RESOURCES	Given a trench collapse incident, tools used for self-rescue, and the rescue area general area are made safe
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 20 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Implements nonentry and self-rescue tactics				
2. Selects appropriate tools used to facilitate nonentry and self-rescue				
3. Deploys tools correctly				
4. Reduces imposed loads at or near the lip of the trench – CRITICAL POINT				
Candidate must successfully perform 3/4 steps including ALL CRITICAL POINTS	Score: __/4		Score: __/4	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Identify Hazardous Areas
Skill Sheet TA – 03**

SKILL	The candidate shall identify hazardous areas specific to the trench environment
RESOURCES	Given a trench collapse incident, so that the scene is secured, hazards are managed, and an approach path to the trench is identified
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 20 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Ensures scene is secure				
2. Identifies and manages hazards – CRITICAL POINT				
3. Identifies and utilizes path of approach to the trench				
4. Identifies areas of high risk for additional collapse – CRITICAL POINT				
5. Selects and deploys tools or materials for bridging or weight distribution				
6. Communicates high risk areas to other responders – CRITICAL POINT				
Candidate must successfully perform 5/6 steps including ALL CRITICAL POINTS	Score: __/6		Score: __/6	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.

**Size-Up an Incident
Skill Sheet TA – 04**

SKILL	The candidate shall size-up an incident
RESOURCES	Given an incident, background information, and applicable reference materials, so that the operational mode is defined, resource availability and response time is considered, types of rescues are determined, the number of victims are identified, the last reported location of all victims is established, witnesses and reporting parties are identified and interviewed, resource needs are assessed, search parameters are identified, and information required to develop an incident action plan is obtained
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 20 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Defines operational protocols and identifies search parameters				
2. Identifies the number of victims – CRITICAL POINT				
3. Establishes last reported location of victims				
4. Identifies and interviews witnesses and reporting parties				
5. Assesses resource needs and availability				
6. Demonstrates ability to read specific rescue reference materials				
7. Relays pertinent information to personnel				
Candidate must successfully perform 5/7 steps including ALL CRITICAL POINTS	Score: __/7		Score: __/7	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

Recognize Incident Hazards and the Need for Resources Skill Sheet TA – 05

SKILL	The candidate shall recognize incident hazards and recognize the need for technical rescue resources at an operations- or technician-level incident
RESOURCES	Given AHJ guidelines, scene control barriers, PPE, requisite equipment, and available specialized resources, so that all hazards are identified, resource application fits the operational requirements, hazard isolation is considered, risks to rescuers, bystanders, and victims is minimized, rescue time constraints are taken into account, the need for additional resources is identified, the response system is initiated, the scene is secured and rendered safe until additional resources arrive, and awareness-level personnel are incorporated into the operational plan
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS		Test		Retest	
Safely performs the following steps:		P	F	P	F
1. Identifies resource capabilities and limitations					
2. Identifies, evaluates, and isolates incident hazards – CRITICAL POINT					
3. Considers rescue time constraints					
4. Places scene control barriers and ensures scene is secured					
5. Identifies need for additional resources and initiates response system					
6. Incorporates awareness-level personnel into the operational plan					
7. Applies operational protocols appropriately					
8. Selects and uses specific planning forms based on the type of machinery					
9. Determines required safety measures					
Candidate must successfully perform 7/9 steps including ALL CRITICAL POINTS		Score: __/9		Score: __/9	
Evaluator Notes					
Evaluator Print Name & Signature:		Date	Overall Skill Sheet Score		
			Pass___	Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)					
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score			
		Pass___		Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)					
Candidate Print Name & Signature:		Candidate: Print Name or Candidate #			
<p>Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.</p> <p>Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.</p>					

Identify and Support an Incident Skill Sheet TA – 06

SKILL	The candidate shall identify and support an operations- or technician-level incident
RESOURCES	Given an incident, an assignment, incident action plan, and resources from the tool kit, so that the assignment is carried out, progress is reported to command, environmental concerns are managed, personnel rehabilitation is facilitated, and the incident action plan is supported
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 20 minutes

PERFORMANCE STEPS		Test		Retest	
		P	F	P	F
Safely performs the following steps:					
1. Applies operational protocols					
2. Functions within IMS					
3. Reports task progress to command					
4. Implements and follows an Incident Action Plan					
5. Manages environmental concerns					
6. Facilitates personnel rehabilitation					
Candidate must successfully perform 5/6 steps including ALL CRITICAL POINTS		Score: __/6		Score: __/6	
Evaluator Notes					
Evaluator Print Name & Signature:		Date	Overall Skill Sheet Score		
			Pass___	Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)					
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score			
		Pass___		Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)					
Candidate Print Name & Signature:		Candidate: Print Name or Candidate #			
<p>Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.</p> <p>Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.</p>					

Identify Potential Hazards Skill Sheet TO – 07

SKILL	The candidate shall identify potential hazards of victims and rescuer in and around a trench excavation
RESOURCES	Given a trench collapse incident and a trench rescue tool kit, so that potential areas of additional collapse in the trench are identified, utility lines are located, spoil piles are monitored, additional superimposed weight is identified, sources of atmospheric contamination are assessed, sources of water are identified, and environmental hazards are considered
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Locates utility lines				
2. Monitors spoil piles				
3. Assesses sources of atmospheric contamination and considers environmental hazards – CRITICAL POINT				
4. Interprets tabulated data and tables				
5. Assesses and addresses the effects of water on trench stability				
Candidate must successfully perform 4/5 steps including ALL CRITICAL POINTS	Score: __/5		Score: __/5	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

Implement a Hazard Control Plan Skill Sheet TO – 08

SKILL	The candidate shall implement a hazard control plan
RESOURCES	Given a trench collapse incident, hazard control plan, and trench rescue tool kit, so that provisions for ventilation, dewatering, energy control, air monitoring, and falls are accomplished, and prevention of unplanned soil movement is accomplished
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Employs a hazard control plan to protect personnel inside and outside of trench				
2. Establishes safe zones - CRITICAL POINT				
3. Performs atmospheric monitoring and initiates ventilation - CRITICAL POINT				
4. Initiates dewatering operations				
5. Provides energy control				
6. Selects and uses proper PPE				
7. Applies fall prevention				
8. Implements strategies to minimize unplanned soil movement				
Candidate must successfully perform 6/8 steps including ALL CRITICAL POINTS	Score: __/8		Score: __/8	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Develop a Shoring Plan for a Non-
Intersecting Trench
Skill Sheet TO – 09**

SKILL	The candidate shall develop a shoring plan for a non-intersecting trench no more than 8 feet (2.4m) deep
RESOURCES	Given a trench collapse incident, and a trench rescue tool kit, so that the methods of potential collapse are recognized, the mechanisms of entrapment are identified, areas of the trench that are blown out or undercut are addressed, related tabulated data are consulted, the weights and hazards associated with the soils are considered, and the location of the victim and projected path for removal are incorporated
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Determines appropriate shoring strategies				
2. Designates a cut station location				
3. Identifies material and equipment needs				
4. Establishes scene safety zones – CRITICAL POINT				
5. Pre-briefs team on shoring strategies, victim release, and projected path of removal				
6. Addresses blown-out or undercut areas of the trench				
7. Consults tabulated data				
8. Considers weight and hazards associated with soils				
9. Recognizes methods of potential collapse				
10. Recognizes mechanisms of entrapment				
Candidate must successfully perform 7/10 steps including ALL CRITICAL POINTS	Score: __/10		Score: __/10	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Implement a Shoring Plan for a Non-
Intersecting Trench
Skill Sheet TO – 10**

SKILL	The candidate shall support a non-intersecting straight wall trench of 2.4 m (8 ft) or less, as a member of a team, so that strategies to minimize the further movement of soil are implemented effectively; trench walls, lip, and spoil pile are monitored continuously; rescue entry team(s) remains in a safe zone; any slough-in and wall shears are mitigated; emergency procedures and warning systems are established and understood by participating personnel; incident-specific personal protective equipment is utilized; physical hazards are identified and managed; victim and rescuer protection is maximized; victim extrication methods are considered; and a rapid intervention team is staged
RESOURCES	Given size-up information, an action plan, a trench tool kit, and an assignment
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Establishes a cut station				
2. Chooses and installs shoring systems, in accordance with the tabulated data, in the trench so the soil remains static in a trench 8 ft deep – CRITICAL POINT				
3. Installs supplemental shoring – Includes lateral, distal and proximal sheeting as required - CRITICAL POINT				
4. Ensures trench lip, walls and spoil pile are continuously monitored				
5. Ensures all entry team members remain in safe zones				
6. Ensures emergency procedures and warning systems are established and understood				
7. Follows protocols				
8. Uses all required personal protective equipment – safety glasses, hard hat, hearing protection, gloves				
9. Pre-plans for and stages equipment for victim extrication – stokes or SKED, hand shovels, etc.				
10. Ensures rapid intervention crew is staged				
Candidate must successfully perform 7/10 steps including ALL CRITICAL POINTS	Score: __/10		Score: __/10	

Evaluator Notes

Evaluator Notes

		Pass____ Fail____
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)		
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score
		Pass____ Fail____
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)		
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #	
<p>Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.</p> <p>Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.</p>		

**Release a Victim from Soil Entrapment –
Non-Intersecting Trench
Skill Sheet TO – 11**

SKILL	The candidate shall release a victim from soil entrapment by components of a non-intersecting collapsed trench of 2.4 m (8 ft) or less in depth, so that hazards to rescue personnel and victims are minimized, considerations are given to crush syndrome and other injuries, techniques are used to enhance patient survivability, tasks are accomplished within projected time frames, and techniques do not compromise the integrity of the existing trench shoring system
RESOURCES	Given personal protective equipment, a trench rescue tool kit, and specialized equipment
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Selects and uses personal protective equipment – eye protection, hard hat, hearing protection, gloves				
2. Operates rescue tools to release victim from entrapment - CRITICAL POINT				
3. Ensures hazards to rescue personnel and victims are minimized - CRITICAL POINT				
4. Ensures considerations are given for a victim appearing with crush syndrome				
5. Performs risk benefit assessment for selected methods of rescue and time restraints				
Candidate must successfully perform 4/5 steps including ALL CRITICAL POINTS	Score: __/5		Score: __/5	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Remove a Victim from a Trench
Skill Sheet TO – 12**

SKILL	The candidate shall remove a victim from a trench, so that basic life functions are supported as required; the victim is evaluated for signs of crush syndrome; methods and packaging devices selected are compatible with intended routes of transfer; universal precautions are employed to protect personnel from blood-borne pathogens; and extraction times meet time constraints for medical management
RESOURCES	Given a disentangled victim, a basic first aid kit, and victim packaging resources
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS		Test		Retest	
		P	F	P	F
Safely performs the following steps:					
1. Selects and uses appropriate personal protective equipment					
2. Supports basic life functions, provide basic medical care					
3. Evaluates victim for signs of crush syndrome and identifies need for advanced life support					
4. Selects methods and packaging devices that are compatible with intended routes of transfer					
5. Ensures that extrication times meet time constraints for medical management					
Candidate must successfully perform 4/5 steps including ALL CRITICAL POINTS		Score: __/5		Score: __/5	
Evaluator Notes					
Evaluator Print Name & Signature:		Date	Overall Skill Sheet Score		
			Pass___	Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)

			Pass___	Fail___	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)					
Candidate Print Name & Signature:		Candidate: Print Name or Candidate #			
Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.					
Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.					

**Disassemble Support Systems and Terminate
Scene
Skill Sheet TO – 13**

SKILL	The candidate shall disassemble support systems at a trench emergency incident, so that soil movement is minimized; all rescue equipment is removed from the trench; sheeting and shoring are removed in the reverse order of their placement; emergency protocols and safe zones in the trench are adhered to; rescue personnel are removed from the trench; the last supporting shores are pulled free with ropes; equipment is cleaned and serviced; reports are completed; a post- briefing is performed; technical rescue operation is terminated; rescuer risk and site safety are managed; scene security is maintained and custody transferred to a responsible party; personnel and resources are returned to a state of readiness; recordkeeping and documentation occur; and post-event analysis is conducted
RESOURCES	Given a personal protective equipment, a trench rescue tool kit, and supplies for removal of victim(s)
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Utilizes site control equipment and methods				
2. Employs system of data collection and management				
3. Recognizes potential hazards				
4. Completes risk analysis				
5. Adheres to emergency protocols and safe zones in the trench				
6. Utilizes asset and personnel tracking system to ensures that rescue personnel, equipment, sheeting, and shoring are removed from the trench				
7. Pulls the last supporting shores free with ropes				
8. Services and cleans equipment				
9. Performs a post-briefing				
10. Uses Personal protective equipment – eye protection, hard hat, hearing protection, gloves				
Candidate must successfully perform 7/10 steps including ALL CRITICAL POINTS	Score: __/10		Score: __/10	

Evaluator Notes

<p>Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.</p> <p>Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.</p>					

**Develop Shoring Plan for An Intersecting
Trench
Skill Sheet TT – 14**

SKILL	The candidate shall develop a shoring plan for an intersecting trench
RESOURCES	Given trench collapse incident and trench rescue tool kit, so that the methods of potential collapse are recognized, the mechanisms of entrapment are identified, areas of the trench that are blown out or undercut are addressed, related tabulated is consulted, the weights and hazards associated with the soils are considered, and the location of the victim and projected path of removal are incorporated
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Determines appropriate strategies for shoring				
2. Designates a cut station location and material/equipment needs				
3. Establishes safe zones – CRITICAL POINT				
4. Recognizes potential methods of collapse				
5. Identifies mechanisms of entrapment				
6. Addresses areas of the trench that are blown out or undercut				
7. Consults tabulated data				
8. Considers the weights and hazards associated with soils and takes necessary precaution – CRITICAL POINT				
9. Performs pre-brief with team regarding shoring strategies, victim release, and projected path of removal				
Candidate must successfully perform 7/9 steps including ALL CRITICAL POINTS	Score: __/9		Score: __/9	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___

Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Implement a Shoring Plan for an
Intersecting Trench
Skill Sheet TT – 15**

SKILL	The candidate shall implement a trench shoring plan for an intersecting trench
RESOURCES	Given a trench collapse incident, trench shoring plan, and trench rescue tool kit, so that the victim is protected from additional collapse, the trench walls are supported, prior areas of collapse are addressed, shoring team members work from protected areas, and shoring systems are installed so they perform their intended function
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Installs shoring and shielding systems in trench 8 feet deep so that walls are supported				
2. Installs supplemental shoring where needed				
3. Chooses correct methods of stabilization and addresses prior areas of collapse				
4. Follows protocols				
5. Establishes cut station				
6. Addresses areas of the trench that are blown out or undercut				
7. Anticipates extrication logistics				
8. Chooses and uses PPE correctly – CRITICAL POINT				
9. Ensures victim is protected from additional collapse – CRITICAL POINT				
10. Ensures all team members work from protected areas – CRITICAL POINT				
Candidate must successfully perform 7/10 steps including ALL CRITICAL POINTS	Score: __/10		Score: __/10	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

Develop a Shoring Plan for a Trench Deeper Than 8 Feet Skill Sheet TT – 16

SKILL	The candidate shall develop a shoring plan for a trench more than 8 feet (2.4 m) deep
RESOURCES	Given a trench collapse incident and trench rescue tool kit, so that the methods of potential collapse are recognized, the mechanisms of entrapment are identified, areas of the trench that are blown out or undercut are addressed, related tabulated is consulted, the weights and hazards associated with the soils are considered, and the location of the victim and projected path of removal are incorporated
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Determines appropriate strategies for shoring				
2. Designates a cut station location and material/equipment needs				
3. Establishes safe zones – CRITICAL POINT				
4. Recognizes potential methods of collapse				
5. Identifies mechanisms of entrapment				
6. Addresses areas of the trench that are blown out or undercut				
7. Consults tabulated data				
8. Considers the weights and hazards associated with soils and takes necessary precaution – CRITICAL POINT				
9. Performs pre-brief with team regarding shoring strategies, victim release, and projected path of removal				
Candidate must successfully perform 7/9 steps including ALL CRITICAL POINTS	Score: __/9		Score: __/9	

Evaluator Notes

		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

Implement a Shoring Plan for a Trench Deeper than 8 Feet Skill Sheet TT – 17

SKILL	The candidate shall implement a trench shoring plan for a trench more than 8 feet (2.4 m) deep
RESOURCES	Given a given trench collapse incident, trench shoring plan, and trench rescue tool kit, so that the victim is protected from additional collapse, the trench walls are supported, prior areas of collapse are addressed, shoring team members work from protected areas, and shoring systems are installed so they perform their intended function
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Installs shoring and shielding systems in trench 8 feet deep so that walls are supported				
2. Installs supplemental shoring where needed				
3. Chooses correct methods of stabilization and addresses prior areas of collapse				
4. Follows protocols				
5. Establishes cut station				
6. Addresses areas of the trench that are blown out or undercut				
7. Anticipates extrication logistics				
8. Chooses and uses PPE correctly – CRITICAL POINT				
9. Ensures victim is protected from additional collapse – CRITICAL POINT				
10. Ensures all team members work from protected areas – CRITICAL POINT				
Candidate must successfully perform 7/10 steps including ALL CRITICAL POINTS	Score: __/10		Score: __/10	

Evaluator Notes

		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

Support an Intersecting Trench Skill Sheet TT – 18

SKILL	The candidate shall support an intersecting trench as a member of a team, so that strategies to minimize the further movement of soil are implemented effectively; trench walls, lip, and spoil pile are monitored continuously; rescue entry team(s) in the trench remains in a safe zone; any slough-in and wall shears are mitigated; emergency procedures and warning systems are established and understood by participating personnel; incident specific personal protective equipment is utilized; physical hazards are identified and managed; victim protection is maximized; victim extrication methods are considered; and a rapid intervention team is staged
RESOURCES	Given size-up information and an action plan, a trench tool kit, and an assignment
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Interprets tabulated data information in constructing a protective system				
2. Identifies type of intersecting trench (L, T, Y) and type of collapse				
3. Chooses and installs shoring systems, in accordance with the tabulated data, in the trench so the soil remains static in a trench 8 ft deep – CRITICAL POINT				
4. Installs supplemental shoring – Includes lateral, distal and proximal sheeting as required				
5. Ensures trench lip, walls and spoil pile are continuously monitored				
6. Identifies hazards in trench - CRITICAL POINT				
7. Ensures all entry team members remain in safe zones - CRITICAL POINT				
8. Ensures emergency procedures and warning systems are established and understood				
9. Follows protocols				
10. Uses all required personal protective equipment – safety glasses, hard hat, hearing protection, gloves				
11. Pre-plans and stages equipment for victim extrication – stokes or SKED, hand shovels				
12. Ensures rapid intervention crew is staged				
Candidate must successfully perform 9/12 steps including ALL CRITICAL POINTS	Score: __/12		Score: __/12	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)

		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Install Supplemental Sheeting and Shoring
Skill Sheet TT – 19**

SKILL	The candidate shall install supplemental sheeting and shoring for each 0.61 m (2 ft) of depth dug below an existing approved shoring system; so that the movement of soil is minimized effectively, initial trench support strategies are facilitated; rescue entry team safe zones are maintained; excavation of entrapping soil is continued; victim protection is maximized; victim extrication methods are considered, and a rapid intervention team is staged
RESOURCES	Given size-up information, an action plan, and a trench tool kit
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Identifies type of collapse and method to stabilize				
2. Interprets tabulated data information in constructing a protective system				
3. Chooses and installs shoring systems, in accordance with the tabulated data, in the trench so the soil remains static in a trench - CRITICAL POINT				
4. Installs supplemental shoring – Includes lateral, distal and proximal sheeting as required - CRITICAL POINT				
5. Ensures trench lip, walls and spoil pile are continuously monitored				
6. Identifies hazards in trench relative to existing safe zones - CRITICAL POINT				
7. Ensures all entry team members remain in safe zones - CRITICAL POINT				
8. Ensures emergency procedures and warning systems are established and understood				
9. Follows protocols				
10. Uses all required personal protective equipment – safety glasses, hard hat, hearing protection, gloves				
11. Pre-plans and stages equipment for victim extrication – stokes or SKED, hand shovels, etc.				
12. Ensures rapid intervention crew is staged				
Candidate must successfully perform 9/12 steps including ALL CRITICAL POINTS	Score: __/12		Score: __/12	
Evaluator Notes				

ALABAMA FIRE COLLEGE

SERVE - SHARPEN - SUCCEED

TRP: Trench Rescue Technician Level

*NFPA 1006, Standard for Technical Rescue Personnel
Professional Qualifications 2021 Ed., 12.3.6*

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score

	Pass____	Fail____	
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		
Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.			
Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.			

Utilize Spot Shoring Techniques Skill Sheet TT – 20

SKILL	The candidate shall utilize spot shoring techniques to support soil without incorporating uprights or panels as part of the shoring plan
RESOURCES	Given a trench incident, trench rescue toolbox, tabulated data, and trench shoring plan, so that the soil is prevented from collapse
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Interprets tabulated data information and tables				
2. Places shoring and shielding systems (excluding panels and uprights)				
3. Identifies supplemental sheeting and shoring				
4. Follows protocols				
5. Identifies type of collapse and methods to stabilize				
6. Identifies exposure to hazards within the trench relative to existing safe zones – CRITICAL POINT				
7. Selects and uses proper PPE – CRITICAL POINT				
8. Prevents soil collapse – CRITICAL POINT				
9. Anticipates extrication logistics				
Candidate must successfully perform 7/9 steps including ALL CRITICAL POINTS	Score: __/9		Score: __/9

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Construct Load Stabilization System
Skill Sheet TT – 21**

SKILL	The candidate shall construct load stabilization systems, so that the stabilization system will support the load safely; the system is stable; and the assignment is completed
RESOURCES	Given an assignment, personal protective equipment, and a trench tool kit
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Uses all required personal protective equipment – safety glasses, hard hat, hearing protection, gloves				
2. Calculates weight of the load to be stabilized				
3. Selects and constructs stabilization system				
4. Evaluates structural integrity of the system so that the load is supported safely				
Candidate must successfully perform 3/4 steps including ALL CRITICAL POINTS	Score: __/4		Score: __/4	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Re-Test Evaluator Print Name & Signature:		Overall Skill Sheet Re-Test Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)			
Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at ANY time that you have a safety concern.

**Lift a Load
Skill Sheet TT – 22**

SKILL	The candidate shall lift a load, so that the load is lifted the required distance to gain access; settling or dropping of the load is prevented; control and stabilization are maintained before, during, and after the lift; and operational objectives are attained
RESOURCES	Given a trench tool kit
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Estimates the weight of the load to be lifted				
2. Lifts the load the required distance to gain access				
3. Operates provided tools properly				
4. Prevents settling or dropping of the load				
5. Maintains control and stabilization before, during and after the lift				
6. Operates a lever				
7. Stabilizes the load after moving				
Candidate must successfully perform 5/7 steps including ALL CRITICAL POINTS	Score: __/7		Score: __/7	

Evaluator Notes

Evaluator Print Name & Signature:	Date	Overall Skill Sheet Score	
		Pass___	Fail___
By my signature above, I verify that I am currently certified to the level I am testing (AL/PB/IFSAC)

Candidate Print Name & Signature:	Candidate: Print Name or Candidate #		

Note to Evaluator(s): By your signature above, you verify that you are qualified to serve as an Alabama Fire College Evaluator, have followed AFC Skills Testing Policy and have witnessed that the above candidate has tested the above skills in their entirety.

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Coordinate Use of Heavy Equipment
Skill Sheet TT – 23**

SKILL	The candidate shall coordinate the use of heavy equipment, so that operator capabilities and limitations for the task are evaluated, common communications are maintained, equipment usage supports the operational objectives, and hazards are avoided
RESOURCES	Given personal protective equipment, means of communication, heavy equipment, and an operator
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS	Test		Retest	
	P	F	P	F
Safely performs the following steps:				
1. Evaluates operator capabilities and limitations for task				
2. Evaluates heavy equipment for precision of movement and maintenance				
3. Maintains common communications through the use of hand signals and radio equipment				
4. Ensures equipment usage supports the operational objectives				
5. Recognizes and avoids hazards - CRITICAL POINT				
6. Monitors rescuer and victim safety				
7. Uses appropriate personal protective equipment – eye protection, hard hat, hearing protection, gloves				
Candidate must successfully perform 5/7 steps including ALL CRITICAL POINTS	Score: __/7		Score: __/7

Note to Student: Skill will end when you state or indicate to the evaluator that you have completed all the identified steps. Notify the evaluator at **ANY** time that you have a safety concern.

**Release Victim from Entrapment by
Collapsed Trench
Skill Sheet TT – 24**

SKILL	The candidate shall release a victim from entrapment by components of a collapsed trench, so that hazards to rescue personnel and victims are minimized; considerations are given to crush syndrome and other injuries; techniques are used to enhance patient survivability; tasks are accomplished within projected time frames; and techniques do not compromise the integrity of the existing trench shoring system
RESOURCES	Given personal protective equipment and a trench rescue tool kit
SCENARIO	Provided by Proctor/Evaluator
TIME	Expected time to complete skill(s) is 25 minutes

PERFORMANCE STEPS		Test		Retest	
Safely performs the following steps:		P	F	P	F
1. Uses appropriate personal protective equipment – eye protection, hard hat, hearing protection, gloves					
2. Operates rescue tools and stabilization systems					
3. Evaluates victim for signs of crush syndrome and identifies need for advanced life support					
4. Selects methods and packaging devices that are compatible with intended routes of transfer					
5. Completes risk-benefit assessment for selected rescue method					
6. Ensures that extrication times meet time constraints for medical management					
Candidate must successfully perform 5/6 steps including ALL CRITICAL POINTS		Score: __/6		Score: __/6
