DESCRIPTION

This course is based on NFPA 1006: *Standard for Technical Rescue Personnel Professional Qualifications*. This course will equip the student with the skills and knowledge to be able to prepare and operate in a search and rescue environment, evaluate lost person behavior, determine the need for specialty resources, apply appropriate search patterns, locate and process evidence, navigate in a wilderness environment, and manage certain aspects of search and rescue.

*This is a physically demanding course which requires students to be in good physical condition.

STUDENT LEARNING OBJECTIVES

- Conduct a size-up of a SAR incident.
- Conduct incident assessment.
- Determine potential victim locations based on investigation.
- Develop a SAR incident action plan.
- Determine the need for additional resources.
- Conduct a search in a wilderness environment.
- Demonstrate the ability to navigate in a wilderness environment.
- Stabilize and remove a victim from a wilderness environment.
- Review and determine objectives based on lost-person behavior.
- Conduct a witness interview.

- Document and collect evidence.
- Demonstrate basic survival techniques.
- Demonstrate victim transport techniques.
- Demonstrate ability to provide wilderness medical care.

CERTIFICATION REQUIREMENTS

To be issued certification, the candidate will: provide documentation of prerequisites, complete required training hours including skills training, successfully complete the cognitive written exam, and successfully complete the practical exam.

ACCREDITATION

Alabama Fire College and Personnel Standards Commission maintains accreditation with Pro Board and IFSAC. Each student will automatically receive national registration and certification upon successful completion of all requirements for certification.
